

Dear FCC,

After reading a recent letter from K-LOVE, I learned that you are considering a Low FM station which would cause us to lose our radio station here in Wichita- K- LOVE. K-LOVE radio station is very important to our community. It provides the positive, encouragement that I need as a Christian. Unlike other radio stations K-LOVE isn't all preaching or just hymns. K-LOVE provides the music I want to hear for my generation.

If K-LOVE were to be gone from our community we wouldn't have a radio station that would encourage families and people who really need to just sometimes hear good music.

K-LOVE brings a lot to the table in the way of changing lives. If this service was gone I shudder to think what will happen to communities around the US. They are an asset to our community here and an asset to the USA in general. Please consider not doing the new LOW FM and keeping things the way they are currently.

Thank you,
Shawnee Penkacik

Thank you for taking the time to support YOUR local K-LOVE station!
